

Okinawa Bureau Lognote--1 March 1982

[redacted] Yomitan Mayor Tokushin Yamauchi and three members of the Yomitan Planning Department visited the bureau on 25 February and met with the bureau chief and me. The mayor and his colleagues stressed that they had no problems with our operation. They said they hoped to build an outdoor recreation area about two kilometers from the bureau (in Nagahama) and wanted to ascertain that the outdoor lighting to be installed would not affect bureau reception or communications. After checking with the bureau engineer [redacted] we told the visitors we could foresee no problems. We thanked them for their concern. Following the meeting we gave them a tour of the bureau. (cc: \Local Liaison, Communications Interference, [redacted])
